MRS. WINSLOW'S SOOTHING SYRUP

EFFECTED BY ALFRED BETTS'S SHAKER SYRUP SARSAPARILLA!

The following can be given as an efficient Railroad Contractor, which can be rendered, throughout the New England States.

BOSTON, March 8, 1849.

Messrs. E. Brinley & Co.

Gentlemen:—Happy am I to inform you of the wonderful effects of Corbett's Sarsaparilla upon a little daughter of ours, who was poisoned, when at the age of about three years, by *vaccination*.—Eruptions of the skin covered her whole body for more than twelve months, discharging the most offensive matter. We were compelled for months to oblige our little sufferer to wear mittens while in bed, and to adjust her night-dress by closing the openings at the hands and feet so as to prevent her from tearing her flesh. But even with these precautions, she would, at times, release her hands by gnawing her mittens about the finger ends, and then scratch and lacerate herself severely until the blood would flow.

She is now nicely restored to health, having used no other medicine for the last two years than "Corbett's Sarsaparilla." The effect of this powerful alterative is most signal, serving to cleanse the whole system and eradicate all disease. The skin of our little girl is now fair as that of infancy, and her system rapidly changing from infirmity and disease to perfect health, and this I know to be the result of the use of Corbett's Sarsaparilla only. J. P. EASTMAN.

Made and put up by the Society of Shakers.—*None genuine without the signature of Dr. Corbett.*

E. BRINLEY & CO., Sole Agents, Boston.

For sale by R. R. HAZARD, Agent for Newport. Mar11

DR. CORBETT'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

The Formula of this invaluable Preparation has been laid before many of the different Medical Societies in New England, and has received in every case their especial commendation. It has been acknowledged as the most powerful antidote yet known! Thoroughly cleansing the Blood! Eradicating Scrofulous Taint and affording the most healing qualities to Diseased Lungs! and giving to the consumptive Restoration to Health!

The celebrated Surgeon and Physician, Dr. Valentine Mott, President of the New York Academy of Medicine, has given his especial notice to the accurate Preparation of Dr. Corbett's, and permits me to refer to him as to its virtues.

This is testimony most emphatic! but in Boston, other distinguished Physicians have also afforded their approval of this signally efficacious medicine. Such as Dr. J. C. Warren, Dr. J. W. Warren, Dr. Geo. Hayward, Dr. John Jeffries, Dr. J. V. C. Smith and others; many of whom have given their names in writing in favor of its curative powers.

Alexander B. Mott, Esq., Druggist of New York, son of the distinguished Dr. Valentine Mott, writes as under date Nov., 1848:—

"The Physicians of this city who have made use of Corbett's Syrup of Sarsaparilla, express themselves pleased with its effects and are constantly ordering it."

These are credentials the public may rely upon! for they are those of the highest authority and the largest experience in Medical Science and research.

LITTELL'S LIVING AGE,

E. LITTELL & CO., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but while thus extending his scope and gathering a greater and more attractive variety, is able so to increase the solid and substantial part of his literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the Lancet and Industrious Literary Gazette, the scientific and comprehensive Britannia, the sober and respectable Christian Observer; these are intermixed with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thunder of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world; so that much more than ever it now becomes every intelligent American to be informed of the condition and change of foreign events. And this not only because of their nearer connections with ourselves, but because the nations seem to be hastening, through a rapid process of changes to some new state of things, which the merely political prophet cannot conjecture or foresee.

Geographical Discoveries, the progress of Colonization, Fashion is extending over the whole world, and Voyages and Travels, about favorite matter for his selections; and, in general, the editor systematically and very fully acquaints his readers with the great departments of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of leisure and taste in all places, it will be found to be equally acceptable and useful to their wives and children. It is adapted to every well-informed family. We say adapted, because in this day of cheap Engravings it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental appetite must be gratified.

By winnowing the wheat from the chaff, by providing, chiefly for the imagination, and by a judicious selection of Biography, Voyages and Travels, Short Tales, and more solid matter, a work is produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & Co., Boston, who supply subscribers and dealers from all parts of the country. The price is $6 to the n, and they will send the work to that amount.

Each number contains a fine-sized page, containing 32 pages of double column matter. Price 12 1-2 cents, or $6 by the year, in advance. We add to our notice a few extracts, which we could easily swell into a page, but from the late Ex-President J. Q. Adams:—

"WASHINGTON, 27th December, 1846.

Of all the Periodical Journals received in Europe and this country, this has appeared to me to be the most valuable. It contains, of all the compositions, a selection from the Edinburgh Review, and Blackwood's Magazine, by the immense expense of postage, I can only by its immense expense of postage, have been enabled to peruse the best articles of the Edinburgh Review, and Blackwood's Magazine, for many years past. I cannot, therefore, but express my gratitude for the gratification, and the information, I have derived from the perusal of the volumes of the Living Age.

J. Q. ADAMS."

DR. CORBETT'S SYRUP OF SARSAPARILLA!

EFFECTS WONDERS!

Read this remarkable case of JOHN DAVIS, *Sexton of Rev. Edward T. Taylor's Church, Boston.*

I, the undersigned, Sexton of the Church of that good man, Father Taylor, state the following facts, which I think should be told a world. I was born in Portugal, and am now forty years of age. My parents were healthy, and I was not afflicted by any disease until the year 1845. I was then residing in Boston. At that time my skin became affected to a degree, which at last was so bad as to alarm myself and friends. Severe sores and abscesses developed themselves; large scales are now deeply imprinted on my forehead and other parts of my body, and by their excoriation penetrated even into the bone. About twelve months since my afflictions seemed increasing.—Incapacitated sores of the foulest character came out on my arms, my head, and even attacked my eyes. I became weak, emaciated, and unable to perform the duties of life for my daily bread.—Failing of receiving any benefit from physicians who prescribed for me, I resorted to the use of various Sarsaparilla compounds, as advertised, but with no benefit. The able and distinguished surgeon and physician, James Ayer, M. D., Hanover street, who had watched my case, at last advised my using Corbett's Shaker Sarsaparilla.

I am happy now to state that my general health is fast improving, the scrofulous abscesses on my head, arms and face quietly passing away, and not until this moment have I had any hope of a recovery from the grave. To Corbett's Sarsaparilla do I solely attribute this amelioration, as not until I had adopted its use, (and this in minute quantities,) have I for four years found any relief from suffering. JOHN DAVIS.

Sexton of Rev. Edward T. Taylor's Church.

DR. CORBETT'S Concentrated Syrup of Sarsaparilla!—The Robust Medicine of the Day.—Thus writes L. W. Wright, Esq., the well known, efficient and gentlemanly Conductor on the Concord Railroad.

Boston, Feb. 21, 1849.

Messrs. Edward Brinley & Co.

Gentlemen:—In March last, 1848, I was prostrated for several weeks with an inflammatory brain fever, which left me in a weak and feeble state.

A friend advised me to try a bottle of "Corbett's Concentrated Shaker Sarsaparilla," which I did, with the happiest results. Before I had completed the first bottle, I was conscious of a decided improvement, both in strength and my general health. I have since used several additional bottles, until my health is better, and my constitution apparently stronger than it has been for years. To those similarly afflicted as myself, and indeed to all troubled with constitutional debility, loss of appetite, or impure blood, whether procreated by mercurial disease or otherwise, I can cheerfully recommend the Shaker Sarsaparilla, as in my opinion it is the most effective and healthiest-acting medicine known. Yours truly,

L. W. WRIGHT,

Conductor on the Concord Railroad.

E. Brinley & Co., Agent for the U. States and Canadas.

R. R. HAZAD, Agent for Newport.

WONDERFUL EFFICACY OF DR. CORBETT'S HIGHLY CONCENTRATED

SYRUP OF SARSAPARILLA,

Further evidence as to its Virtues.

To Messrs. E. Brinley & Co.

Gentlemen—Since time since you kindly sent me a few bottles of Dr. Corbett's Shaker Sarsaparilla, I have taken it occasionally, as I felt the need of it, my Blood being out of order, and my Stomach improved by dyspeptical complaints. As I had long been using other Sarsaparilla Compounds with injury rather than benefit, and having tried various remedies with no help whatever, I felt unwilling to attempt anything further. But relying on the distinguished names of Physicians attached to the medicine, I began the use of one bottle. Using it only in small doses, I found my stomach gradually regaining its tone. After a steady and undeviating use of it for some months, I found my whole system thoroughly changed. My appetite was restored; my Blood clear, active and pure, and health once more attained. Some of my friends most painfully afflicted with diseases of the Skin, Liver Obstruction, and who are of strong Consumptive habit, are now using this wonderful medicine with most astonishing efficacy. In my own case, I can be happy to state the cure was complete beyond my best anticipations.

Very gratefully, you obliged friend,

JOHN T. FIELD.

Sold by EDWARD BRINLEY & CO., Druggists, Nos. 3 and 4 South side Faneuil Hall, Boston, Sole Proprietors; and their appointed Agents generally.

To Druggists and Dealers in Medicine.

DR. WISTAR'S

BALSAM OF WILD CHERRY.

This celebrated and infallible remedy for the cure of Consumption, Asthma, and Liver Complaint, was discovered some ten years ago. Since that time it has, by its own merits, been rapidly, steadily, and solidly making its way through the opposition of quacks and competitors, until by its intrinsic value, and intrinsic excellence, it has gained for itself a most enviable popularity and established itself in the confidence of an intelligent and enlightened public, from one end of the continent to the other. The testimony of thousands who have been relieved and cured by this valuable article, will show that it stands unrivalled at the head of all other medicines for the cure of diseases for which it is recommended. The genuine Dr. Wistar's Balsam of Wild Cherry is now for sale by duly appointed Agents, and all respectable dealers in medicine in all large cities and all important towns throughout the United States, Canadas, and British Provinces.

None genuine unless signed *I. RUTH*, on the wrapper.

For sale by R. J. TAYLOR, Agent for Newport. Mar14

FACTS TO BE REMEMBERED.

That Consumption is almost always preceded by a cold that might be easily cured. "Hale Wistar's Balsam of Wild Cherry will cure any cough or cold, no matter of how long standing. The number of Consumptive cures effected by this Balsam. That it is conceded by many lawyers, clergymen and physicians, that this Balsam is entitled to be classed for efficacy in the diseases of the Lungs and Lungs. That some more respectable persons of good health who have for this Balsam would have been lost by its great curative properties, by their friends and physicians.

Dr. Bradford Kingsley of Canaan, Pike, N. Y., in a letter says such is the success of his practice in this vicinity, that he could [illegible] Wistar's Balsam of Wild Cherry in my family, for the cure of which it is pronounced by [illegible] Consumption, Liver Complaint, Pleurisy, Coughs, Colds, Whooping Cough, Asthma, Hoarseness, Bronchitis

The Daily News.

NEWPORT.

BY CRANSTON & NORMAN,
127 Thames Street.

THURSDAY MORNING, MAY 23, 1850.

☞ In regard to our article, a few days ago, on Woman, where we asked the question who ever heard of a lady in the times of which the Bible treats,—some one has referred us to the first verse of the second Epistle of John, which reads as follows.—"The elder unto the elect lady and her children, whom I love in the truth: and not I only, but also all they that have known the truth," &c. We were aware of the expression in this verse, and also its repetition in the fifth verse, when we wrote the article now in question. Whether a woman or a particular church was here referred to by the Apostle, is a matter of great doubt. Adam Clarke thus speaks of the expression in his Commentaries:—"As *Kuria, Kyria*, may be the feminine of *Kurios, Kyrios*, lord, therefore it may signify *lady*; and so several, both ancients and moderns, have understood it. But others have considered it the *proper name of* a woman, *Kyria*, and that this is a very ancient opinion, is evident from the *Peshito Syriac*, the oldest version we have, which uses it as a proper name *Kourea*, as does also the Arabic *Koorea*." Dr. Clarke concludes thus—"I am satisfied that no *metaphor* is here intended; that the epistle was sent to some eminent Christian matron, not far from Ephesus; who was probably *deaconess* of the church; who, it is likely, had a church at her house; or at whose house the apostles, and travelling evangelists, frequently preached and were entertained."

It is by no means certain then, in the first place, that the Apostle addressed this Epistle to a female, but, if he did, it is most probable that the Greek word *Kuria*, which has been translated *lady*, was her proper name. At all events, be these matters as they may, we are very certain that the Apostle John never so far disgraced his mission, and brought the cause of his master so low, as to address an Epistle to such a *lady* as may be found in a fashionable hall-room, or in fashionable society anywhere, at the present day. Had he been guilty of such business, we should have but little faith in anything which he said or did. John was too good a man to labor under any such pitiable infirmity.

Court of Common Pleas.—State vs. William Brown. The indictment charged the prisoner with stealing a watch, chain and other articles of jewelry from the residence of William T. Potter, on the 7th of May last.

J. M. Blake, Attorney General, for State. W. P. Sheffield for Prisoner.

Verdict Guilty

State vs William Brown. This indictment charged the prisoner with entering the residence of Samuel Westcott, on the 17th inst., and stealing therefrom a gold watch and chain and other articles of jewelry.

J. M. Blake, Attorney General, for the State. W. P. Sheffield for Prisoner.

Verdict Guilty.

State vs Alfred Edmunds. The indictment charges the prisoner with being an accomplice of Brown in the robbery of Mr. Westcott's house.

J. M. Blake, Attorney General, for the State. C. G. Perry, for Prisoner.

☞ An officer came down from Taunton yesterday, to see if he could get any information in regard to certain robberies which have recently been committed in Taunton; he identifies Brown, the fellow who was tried yesterday, as George Williams, the celebrated hotel thief in Boston.

☞ It has been ascertained that the gold watch found on Brown, when arrested, belonged to Mr. Stephen Phillips, of Providence. We are satisfied that Brown and Edmands are both experienced house-breakers; and we hope that the Court will punish them to the utmost extent of the law. It is said that Brown is just out of State Prison; he will have but a short vacation.

The Providence Post tells a story of "mysterious rappings" in Scituate, in this State, which are superior to those of Rochester and Stratford.

Ohio.—The popular Whig candidate for Governor of Ohio, in a brief letter, accepts the nomination. He concludes by saying, "A very few days will suffice to make my arrangements, and THEN I SHALL TAKE THE STUMP."

A Marriage or Some Account.—Mad'lle Jagelle, the Hungarian heroine, is about to marry the brother of Howard, of the Irving House, New York.

☞ Father Matthew is in New Orleans.

The Cuban Expedition.—The *Republic* of yesterday says, that in consequence of information received by the Government, as to the designs against Cuba, the President gave orders to certain vessels of the home squadron, including the steamer Saranac and the frigate Congress, to proceed forewith to the Island of Cuba, for the purpose of preventing the landing of any such force, or the carrying out of any such expedition. In the event of the landing having been effected, they are to prevent any reinforcements of men, arms, or provisions under the American flag.

The force ordered on this duty consists of the following vessels:

Saranac, steamer,	Capt. Tatnall,	6 guns
Vixen, "	Lt. Com'g Ward,	2 "
Water Witch "	Lt. Com'g Totten,	1 "
Perdido, fligate,	Capt. Page,	60 "
Congress, "	Capt. ——,	60 "
Albany, sloop-of-war,	Comm'r Randolph,	24 "
Germantown, "	Comm'r Lavallette,	24 "
Flirt, schooner,	Lt. Com'g Farrand,	2 "
		179 guns

We understand that the steamer Saranac proceeded to sea on Saturday last, and will reach Cuba on or about Thursday next, where it is expected that she will meet the U. S. Germantown, Albany, and Vixen—It is also confidently expected that the whole U. S. naval force, ordered thither, will reach the Island before any great numbers of those engaged in the enterprise can possibly effect a landing, and thus prevent the violation of our treaty obligations of amity with Spain.

The Philadelphia Ledger says, with reference to this affair:—We rejoice when any nation recovers its liberty, or any colony throws off an oppressive mother yoke, and becomes a nation. But we have no desire to see our fellow-citizens going about the world as buccaneers, carrying liberty to other communities in the shape of picking their pockets and cutting their throats. The American flag should not be perverted to such purposes. If any of this General's Yankee fellow-citizens get caught by the Spanish authority, they must not plead their citizenship against Spanish hemp. As they brew, so must they bake."

Painful Accident.—A painful and probably fatal accident occurred yesterday, while the sloop Moses Eddy, of this port, was being brought into her wharf. It appears that the sloop was under some headway, the wind blowing fresh at the time, and that the person sailing as master, Capt. Isaac Corwin, of Jamesport, Long Island, was checking her progress by a line made fast on board another vessel, and having a turn round the quarter-crotch of the sloop, when the crotch split, and a portion of it, by force of the strain upon the line, struck him in the head, seriously fracturing his skull, and rendering him senseless. He was taken to [illegible] and Dr. Miller was immediately called; but we learnt last evening that very little hope was entertained of his recovery.—*Prov. Post 21th.*

Energy and Enterprise.—The Journal of Commerce says that there are at this time no less than eighteen ocean steamships—contracted for and on the ways, or receiving their machinery at N. Y. Setting down their average value at $275,000, there is here invested, or is in process of investment, an aggregate capital of $4,950,000, equal to nearly *five millions of dollars.*—New York's ocean marine will soon furrow every ocean.—Something like 35 have already been built or contracted for.

There is a church in Ohio where the water that runs off the roof on one side goes into the Gulf of Mexico, and that which runs off the other side goes into the Gulf of St. Lawrence.

James Johnston, the Whig candidate for Governor of Ohio, has a history not unlike that of Ewing and Corwin. He was kept hard at work clearing up a new farm and splitting rails until his 21st year. After that he took his place as a pupil in a common school; attended a session of the county court as a witness, became enamored of the law, obtained a situation in a law office, entered upon his professional career with gloomy prospects, soon acquired distinction by his eloquence, and lately a seat on the Supreme Court Bench for his learning. Having been nominated for Governor, he has resigned his judgeship, and will electrify the people from the stump from this time on to October. Such a man deserves success.—*Albany Journal.*

☞ It is reported by passengers from Chagres, that the Panama Railway will not be constructed in five years. They also say that it is more than probable that a plank road will supersede it altogether.

☞ The remains of the late President Polk will be removed to their final resting place, in the grounds of his late residence, on the 22d inst.

7 days later from Europe.

Halifax, Monday, 6 o'clock, P. M.

The steamship Europa, from Liverpool May 11th for New York, has arrived.

The steamship Atlantic arrived at Liverpool on Friday evening, May 10th, making the passage in about thirteen days. An accident occured to the condensing pumps, and her boats proved to be too frail. She was delayed by these accidents, it is said, about forty hours. She will not sail as advertised on the 15th inst., nor is it likely that she will leave before the 29th. The date, however, is not fixed yet. She is said to have attained a high rate of speed before her machinery and boats gave out.

The Europa left for New York 9 P. M. wind South—nearly calm.

The steamship Herman, from New York arrived at Southampton on the evening of the 8th.

The steamship America had not arrived when the Europa left.

ENGLAND.

The chief events of the week have been concentrated in steam navigation. The Atlantic was looked for with great anxiety and very friendly feelings. The Irish Translantic Company have already laid on an experimental vessel, the Viceroy, of Glasgow. She is 800 tons burthen, and is advertised to sail from Glasgow on 1st June. If she succeeds as well as anticipated, in the run to Halifax, a line of first class steamers will be placed on the station.

Lord John Russell is still too unwell to introduce the Lord Lieutenancy abolition bill.

The crops are looking extremely promising.

The new expedition in search of Sir John Franklin sailed the 8th.

IRELAND.

Busy, trying to ameliorate the condition of the tenant farmers. A tenant conference to be held in Dublin immediately.

FRANCE.

The anniversary of the Republic was celebrated with great pomp. All was quiet, not a single arrest occurred. On Sunday, Napoleon's death was celebrated. On Monday, the Napoleon and Voix du Peuple Journals ceased to exist. This will promote much good.

Accounts from Guadalupe to the 10th ult. represent the Colony to be in rather an alarming position. The trial of the persons accused of being concerned in the affair of Marie Gollande, in which several individuals were assassinated, has caused great irritation between the white and the black populations of Basseterre, and the former threatened to massacre the latter. A bill to enact capital punishment for political offences, it is said, will shortly be introduced. [illegible] 16th inst., announces that the Archbishop Franciosi had been arrested at his palace, with all the consideration due to his rank, and lodged in the citadel.

THE GERMAN EMPIRE.

Scarcely anything is talked of in Prussia but the two Congresses about to meet in Frankfort and Berlin. It appears that with the circular convening the Frankfort Diet, Austria despatched a confidential note to each State, conceived in a spirit of frankness, relative to the recent negotiations with Prussia.

The Minister of Foreign Affairs is, it is said, now preparing an energetic reply to these notes.

RUSSIA.

The sum which Austria has to pay to Russia, as indemnification for the expenses of the Russian troops, during the late campaign, is 3,700,000 silver roubles. Russia takes salt from Austria to the amount of 700,000 roubles, and the other 3,000,000 are to be paid in yearly instalments of one million, and 5 per cent. interest for the outstanding capital.

TURKEY.

The Wanderer, of Vienna, says that the Porte has communicated to the Austrian Internuncio, that it has definitely fixed the term for the confinement of the Hungarian exiles at 9 months from the first of July last, and that at the expiration of that period they will be at full liberty to go wherever they may please.

GREECE.

The Piræus was again blockaded by Sir William Parker. At the same time orders were given for the blockade of other ports of Greece. On the 25th, the Greek Chamber met, with closed doors, when the Greek Minister explained that the renewal of hostilities was in consequence of the refusal of the Government to admit the claims of the English Cabinet, although the amount of the claim was nearly settled. In answer to a question as to the support to be expected from the two other protecting powers, the Minister of Foreign Affairs said he expected none, notwithstanding his pressing solicitations to that effect.

ITALY.

His Holiness has determined to confiscate the property of the Deputies of the Roman Constituent Assembly, to the amount of 11,000,000 francs. The popularity of the Pope is materially on the decline.

DENMARK AND THE DUCHIES.

Serious disturbances may be expected soon. Denmark is fast recruiting her army, and to judge from Gen. Willisen's proclamation, the Holstein army must be in a most efficient state.

SPAIN.

A new plan has been proposed by the Minister of Finance, for converting all the existing Government securities into new three per cent. stock. The arrangements between England and France are officially ratified.

POLAND.

It has been determined thoroughly to fortify Cracow.

BY TELEGRAPH.

CONGRESS.

Washington, Tuesday, May 21.

Senate.—Mr. Fillmore, the Vice President, presented a communication from the President and the Secretaries of Interior, State and War departments, answering various calls made upon them by the Senate.

Mr. Yulee then called up his resolution in reference to certain acts of the President upon the Cuban business.

Mr. Walker offered an amendment, inquiring why the squadron was ordered to Cuba.

Mr. Yulee advocated his resolution and said that there was no such expedition as the law contemplated. The President's conduct was an usurpation of power, and in violation of all rights and laws, and tending to involve the country in war. He hoped the revolutionary movement in Cuba would succeed.

Mr. Webster is now speaking, and objects to the language of the resolution, and is vindicating the proceedings.

House.—After the reading of the journal, &c., Mr. Harris, of Illinois, introduced an amendment to the reciprocity bill.

Mr. Fulton reported a bill reimbursing the state of Maine her expenses growing out of the boundary question.

Mr. Tuck asked the consent of the House to introduce a bill to regulate the pay of officers of the custom. Objected to.

Mr, Colcock's bill for the establishment of new government warehouses at Mobile, and Bath in the state of Maine, was referred.

Mr. Conrad reported a bill to contract for the United States mail to be sent by steamboat between Mobile and Vera Cruz.

The subject was debated and referred. The House then went into committee of the whole on the state of the Union, and Hayward has the floor, advocating the admission of California.

Conflagration.—*Corning*, Saturday, May 18, 4 1-2 P. M.—This morning at 11 1-2, the wind blowing from the north-west, a fire originated in the Corning and Blossburg Depot, which has consumed all the business portion of our village, from the Clinton House to the lower end of the village, destroying property to the amount of *over three hundred thousand dollars.* There is not a store, grocery, bank or any other building left, except two public houses and what few private residences there were in the west end of the village. An engine was despatched by the orders of Mr. J. Redfield, the agent of the New York and Erie Railroad Depot at this place to Elmira, and in less than two hours two fire companies with their engines came to our aid from that village. They have done yeoman service since their arrival, and are still exerting themselves nobly to arrest the conflagration which is still raging in the extensive lumber yards on the wharves.

Anecdote of Daniel Webster.—The South Boston Gazette first published the following:

At one time Daniel Webster had a difficult case to plead, and a verdict was rendered against his client. One of the witnesses came to him and said, "Mr Webster, if I had thought we should have lost the case, I might have testified a great deal more than I did." "It is of no consequence," replied the lawyer, "the jury do not believe a word you said,"

Mind Your Dots.—A Kentucky member of Congress wrote to his wife on his arrival at Washington city, that he had "formed a connection with a very aggreeable *Mess*, and expected to spend the winter very pleasantly." Unfortunately, to the surprise and mortification of the good lady to whom he was writing, he inadvertently dotted the *e* in the word *Mess.*

The son of a man worth "two hundred thousand," was found lying "dead drunk" in the streets of Pittsburgh.—A few steps from him lay the son of a man worth nothing, in the same condition. Whiskey is a great leveler.

Henry Clay's Hogs.—The citizens of Cincinnati, the headquarters of hogs and bristles, were thrown into a ferment on Friday last, by the appearance of several queer specimens of the hog species, on their way to Ashland, for the pens, of Mr. Clay. They were labelled "African Hogs," being as black as midnight, and are described by the Cincinnati Daily Commercial as "queer fish, with awful big mouths."

☞ "What salary do you expect?" enquired a down town merchant of a youth who was enquiring for a situation.

"Enough to keep from wishing to steal," was the frank rejoinder; and it pleased the merchant so well that a bargain was soon struck.

☞ Victoria's "last," is to be named *Arthur*, after the Duke of Wellington, so that her three promising Princes bear the three alliterating cognomens, Albert-Edward, Alfred, and Arthur.

MARRIED.

In New Bedford, 15th inst., Mr. Gilbert E. Hicks, merchant of New York, and Miss Ann R. daughter of Alexander Gibbs, Esq., of N. B.

DIED.

In Providence, 12th inst., of consumption, Dr Alexander G. Folger, formerly of Nantucket, aged 41 years.

Marine Intelligence.

MRS. JERVIS'S COLD CANDY.

NO POSTPONEMENT.

If you've a cold on Sunday night,
With throat inflamed, chest sore and tight,
And don't take aught to set you right,
You won't get well in *one* day.

But on the Monday when you wake,
With painful cough and ague shake,
Purchase you'll this quotation make—
"*Mrs. Jervis doth* MONDAY."

But if, more like a man of sense,
With that fine Candy you commence,
Which Mrs. Jervis doth dispense—
Twelve hours your cold will banish.

Like a mere wreath of ta'en a certain mist,
By the refulgent sunbeams kissed,
"Twill soon dissolve and vanish.

A fresh lot of the above, this day received and for sale at RIDER'S, 171 Thames st.
may4

CAUTION.

THE REMARKABLE SALVATIVE POWERS OF

DR. S. P. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

Have induced numerous attempts to counterfeit it, and make fraud the use of Dr. TOWNSEND'S NAME to secure the sale of SPURIOUS ARTICLES.

These counterfeits and imitations only prove the VALUE of the ORIGINAL; and no HIGHER COMPLIMENT could be paid to Dr. S. P. Townsend's Extract of Sarsaparilla than the laborious efforts that have been made by many to get up SOMETHING LIKE IT. As to the DISHONEST ATTEMPTS that have been made so to use Dr. Townsend's NAME as to create CONFUSION in the public mind in reference to the GENUINE ARTICLE, we publish below

A CARD OF ALL THE

Principal Wholesale Druggists

IN NEW YORK.

We, the Undersigned,

WHOLESALE DRUGGISTS

IN THE

CITY OF NEW YORK,

Have sold Dr. S. P. Townsend's Extract of Sarsaparilla for several years, and consider it the ORIGINAL and GENUINE Dr. Townsend's Sarsaparilla, and that it was the first introduced to public notoriety under that name.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known in DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA is now manufactured under my direction and supervision, from the original recipe obtained from Dr. S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M.D., *Chemist.*

Dr. Chilton's name is surety that the elements of this Extract are combined in the most correct and scientific manner, and that it is adapted to the wants of the invalid, with the highest professional ability.

THIS WE HOPE WILL BE SUFFICIENT GUARANTEE to the public, and to those purchasing Dr. S. P. Townsend's Compound Extract of Sarsaparilla. Such may have no fear of getting one of the spurious and DANGEROUS MIXTURES which fill the channels of trade, and are concocted without any *knowledge* either of the nature of *medicinal compounds* or the *wants of the human system when labor*

DR. S. P. TOWNSEND'S SARSAPARILLA

IS WARRANTED TO

Keep for any Length of Time,

IN ALL CLIMATES.

CAUTION.

To avoid imposition it will be necessary to see that

Dr. James R. Chilton's Certificate

as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

Sold by all the *Principal Druggists* and *Country Merchants* throughout the United States, Canadas, etc.

DR. CHRISTIE'S GALVANIC BELT, BRACELET NECKLACE AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an Impaired or Disordered Condition of the

NERVOUS SYSTEM.

The beneficial and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the vacillating organs, and invigorating the entire system. Also in FITS, CHAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, HEADLESS NERVOUS TREMORS, PALPITATION OF THE HEART, ATOPHY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and in DEBILITY of the SPINE, HYPOCHONDRIA, DISEASES of the KIDNEYS, DEBILITY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which may in habit arise from one simple cause—namely,

A Derangement of the Nervous System.

In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system, while under the strengthening, life giving influence of Galvanism, as applied by this beautiful and wonderful discovery, the enervated patient and invalid receives instead the boasted health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they effect a cure disease by natural application to the seat of the disease, and not by administering drugs and physic, filling the stomach and vitiating Nature with hostile sky under the influence.

They invigorate the whole system, equalize the circulation of the blood, promote the secretions, and never in the shortest time or under any circumstances. Since it has been introduced in the United States, only three years, more than

69,000 Persons

including all ages, classes and conditions, among which were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and everything else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with Gout and Gravel, DYSPEPSIA, or any other chronic or Nervous Disorder. Let the Belt, or Strengthening Plaster, which, by their action on the nerves and muscles of the stomach, shall temporarily relieve. Not which leave the patient in a lower state and with increased debility; after the action thus excited has ceased. Now compare that with the effect resulting from the application of the GALVANIC BELT. Three physicians conferred, even in the worst symptoms of an attack, and simply as the Belt around the body, using the Magnetic Fluid as directed, in a short time the invincible properties will act on the nervous system of the Belt, thereby causing a healthy circulation which was previously in the negative and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Unimpeachable Character,

From all parts of the Country could be given, sufficient to fill every volume in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

The following letter, describing one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and extended reputation:—

SUSSEX, New Jersey, July 12, 1849.

DR. A. H. CHRISTIE, Dear Sir: You wish to know of me what has been the result to my health, of the application of your remedy. My reply is this:—

For about three years I had been suffering from Dyspepsia in every form and in every form a worse, not could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilful and excellent men, but my best prescriptions failed. About *fourteen years* since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to severe Chronic Rheumatism, which for year after year, caused me excruciating agonies. In the severer paroxysms, the skill of my physicians sometimes failed to afford relief; but this relief was only temporary. Further, as the winter of 1848 and the unusual exposure of preaching a great deal in my own and various other churches in this region I was attacked by the Breach to, which soon became so severe as to compel me to cease the discharge of my pastoral labors. My nervous system was thoroughly prostrated, and in my Rheumatic Sciatic worse, so also did my Dyspepsia and Rheumatic affections—thus evincing that these disorders were connected with each other through the medium of the Nervous System. My entire case was the best example, and I have no prospect other than being entirely bed ridden, in the discharge of the duties, as I for years have done, if I should be which my soul was ever dear. The highest or her joys.

But one thing further remained to be tried, before my life could be subjected to a continuing relief from these most distressing sufferings. In the whole pharmacopœia there seemed to be no remedial agent which could reach and invigorate my Nervous System; every thing of all kinds was tried, and yet I was completely foiled. About this time I had my attention arrested by the wonderful cures effected by the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was indeed the Ultima Thule of my hopes, in this case it was the Dispensation Providence, I was induced to procure an entire set of these remedies, and I can conscientiously say, that I have received from them the greatest benefit. I have not yet fully recovered from the effects of the disease, but I can now truly say that the Lord of all, C. My Physicians have pronounced the Rheumatism entirely cured, and the Dyspepsia is rapidly arrested
